

Data Flow Diagram

Project: ComicCraft | AI/ML & Generative AI

Level 0 - ComicCraft Request and Response Flow

The diagram shows how a user's comic prompt travels through the ComicCraft system and how the generated result is returned for display.

Flow Description

- User enters a creative prompt in the ComicCraft web UI.
- The UI sends the prompt to the FastAPI backend.
- FastAPI forwards the prompt to Gemini AI for Generative AI processing.
- Gemini AI returns the generated story/panel content.
- The backend sends the structured result to the web UI for display.
